

Second-Year Student Presentation

Student: _____

“Each second-year graduate student will present a public seminar of at least ten minutes covering his/her thesis/dissertation topic. The seminar will be announced beforehand with the research topic listed. The purpose of the presentation is to provide an opportunity for the students to define their research and to practice speaking to an audience, and for faculty to learn about students and their research. Acceptable forums are: OCN 780 Seminar, STAR Symposium, Physical Oceanography Division talks in the fall, MGG Biogeochemistry Brown-Bag Seminars, Zoology TESTER Symposium, and Biological Oceanography Grand Rounds. Other forums will need to be approved by the student’s committee and the Department Chair.”
